Issues Found

Accessibility 3 Issues

⚠ Missing Alt Text for Images high

Missing alt text for images can cause accessibility issues for screen readers and visually impaired users.

EVIDENCE

IMAGES (30 total, 22 missing alt text)

⚠ Inaccessible Form Fields high

The form fields have no action and no labels, which can cause accessibility issues for screen readers and visually impaired users.

EVIDENCE

FORMS (4): Action: no-action, Fields: message

⚠ Inaccessible Interactive Demo high

The interactive demo is not accessible for screen readers and visually impaired users.

EVIDENCE

This element contains an interactive demo for sighted users.

Clarity 2 Issues

⚠️ Unclear Call-to-Action medium

The call-to-action 'Get Cursor' is not clear about what the user will get or what the benefits are.

EVIDENCE

'Get Cursor' (button)

⚠️ Unclear Headings medium

The website has unclear headings, which can make it harder for users to understand the content and navigate the page.

EVIDENCE

h1: Mission Control Interface

Navigation 1 Issue

⚠️ Too Many Navigation Items medium

The website has too many navigation items, which can cause confusion and make it harder for users to find what they need.

EVIDENCE

NAVIGATION ITEMS (15)

Trust 2 Issues

i Lack of Trust Indicators low

The website lacks trust indicators such as customer testimonials, reviews, or security badges.

EVIDENCE

No customer testimonials or reviews found on the page

! Lack of Clear Benefits medium

The website lacks clear benefits of using the product or service.

EVIDENCE

Built to make you extraordinarily productive, Cursor is the best way to code with AI.

Layout 2 Issues

! Poor Spacing and Padding medium

The website has poor spacing and padding between elements, which can make it harder to read and navigate.

EVIDENCE

The interface is displayed over a subtle, solid brand background.

i Too Much Content Above the Fold low

The website has too much content above the fold, which can make it harder for users to find what they need.

Recommendations

1 Add Alt Text to Images

BEFORE

IMAGES (30 total, 22 missing alt text)

AFTER

All images have alt text and are accessible.

- ✓ Adding alt text to images makes them accessible for screen readers and visually impaired users.

2 Improve Call-to-Action

BEFORE

'Get Cursor' (button)

AFTER

'Get Started with Cursor and Boost Your Productivity' (button)

- ✓ Improving the call-to-action makes it clear what the user will get and what the benefits are.

3 Simplify Navigation

BEFORE

NAVIGATION ITEMS (15)

AFTER

NAVIGATION ITEMS (5): Product, Agents, Code Review, Resources, Pricing

- ✓ Simplifying the navigation makes it easier for users to find what they need and reduces confusion.
